

Comparative Annuity Reports

YOUR GUIDE TO COMPARING DATA ON...Single and Flexible Premium Deferred Annuity and Single Premium Immediate Annuity programs.

December 2004 Tele: (800) 872-6684 Fax (732) 521-5113 www.comparativeannuityreports.com Volume 25 Issue 12

EDITOR'S COMMENTS... **Numbers Summary:** Surprise! The base interest rate averages on FPDA and SPDA programs reversed "slightly" their months long downward slide. **SPIA Factors:** Hard to believe! SPIA factor averages "paused" in December; ie. factors of some companies rose while others dropped. The ironical result produced average factors identical to November's. **Multi Year Guarantee (Certificate/CD) Annuity Rates Update:** The highest **Guaranteed Base Interest Rates for SPDA Multi Year Guarantee/"CD" programs** this month are: 3.70% for a 3 year guarantee period (**ygp**); 3.35% for a 4 **ygp**; 4.20% for a 5 **ygp**; 4.05% for a 6 **ygp**; 4.10% for a 7 **ygp**; 3.90% for an 8 **ygp**; 4.00% for a 9 **ygp**; and 4.20% for a 10 **ygp**. **Note:** Certificate (CD) Annuity Programs will be of far greater value than bank CDs for individuals who do not anticipate an immediate need for the taxable interest income generated by bank CDs; i.e., a Certificate Annuity provides highly competitive interest rates and, more importantly, tax deferral on earned interest until income is needed.

Once again, caution must be used regarding our published FPDA and SPDA guaranteed rates; as they can and will vary from state to state.

ANNUITY OVERVIEW AND TREND REPORTS

*FLEXIBLE PREMIUM DEFERRED ANNUITY (FPDA) SYNOPSIS				*SINGLE PREMIUM DEFERRED ANNUITY (SPDA) SYNOPSIS				*SINGLE PREMIUM IMMEDIATE ANNUITY (SPIA) SYNOPSIS			
	Current Month	3 Months Ago	1 Year Ago		Current Month	3 Months Ago	1 Year Ago		Current Month	3 Months Ago	1 Year Ago
>Base Interest Rate (Average of Top 100)	3.28%	3.37%	3.39%	>Base Interest Rate (Average of Top 100)	3.64%	3.82%	3.74%	SPIA Factor Averages listed below are derived from top 40 companies surveyed by our study.			
>Highest Annual Base Interest Rate	4.70%	4.70%	4.90%	>Highest Annual Base Interest Rate	4.75%	4.65%	4.75%	Average Annuity Payout Factor, Male Age 70	**6.95	**7.02	**6.98
>High Account Value (in 20 years at \$200 a month/ 12 x per year at current interest rate)	\$78,822	\$78,882	\$80,592	>High Account Value (a \$100,000 deposit in 10 years based on current interest rate)	\$159,050	\$157,540	\$159,050	Average Annuity Payout Factor, Female Age 70	**6.51	**6.58	**6.53
>High Cash (Surrender) Value (in 20 years at \$200 a month/ 12 x per year at current rate)	\$78,822	\$78,882	\$80,592	>High Cash (Surrender) Value (\$100,000 deposit in 10 years based on current interest rate)	\$159,050	\$157,540	\$159,050	Average Annuity Payout Factor, Male Age 75	**7.69	**7.77	**7.73
								Average Annuity Payout Factor Female Age 75	**7.30	**7.37	**7.32

>**NOTE:** Excludes FPDA/ SPDA 2-Tier programs and other programs which do not permit total withdrawal/ rollover of Account Value at retirement.

**** SPIA Factor Note:** SPIA payout factors listed are for the Life & 10 Year Certain Option. To illustrate the value of shopping SPIA factors, the highest male age 75 SPIA factor this month is 8.25. In contrast, the number 40 company's rate is 7.34. By way of explanation, the 8.25 factor (based on \$100,000 of savings) would generate \$825 per month of income for the life of the annuitant, or for up to 10 years from date of issue for the annuitant's beneficiary(ies). Conversely, a factor of 7.34 would produce only \$734 per month using the same \$100,000 amount. The \$91 per month difference (\$825-\$734) would impact a 75 year old male's income by \$13,105 over his normal life expectancy (and of course this lost income potential will increase more dramatically if he outlives his life expectancy). It should be noted that SPIA factors, while generally not quite as high as FPDA and SPDA settlement option rates, are good indicators to use in assessing the viability of a company's FPDA and SPDA settlement option factors. It would be "consumer wise," before accepting any company's FPDA/SPDA payout factors, to shop the SPIA market for a better factor and if found, rolling funds over for increased monthly income using the same amount of dollars.

***Denotes Comparative Annuity Report Synopsis Data on FPDA, SPDA, and SPIA as quoted monthly in Kiplinger's Retirement Report**

Notes of Explanation on Flexible Premium Deferred Annuity (FPDA) and Single Premium Deferred Annuity (SPDA) Studies

***** Indicates program has a **1st year only Bonus Rate** added to the Base Rate. The **Base Rate** is the true projected rate of interest to be applied in **years 2-20** for the **Flexible Premium Deferred Annuity (FPDA)** and **years 2-10** for the **Single Premium Deferred Annuity (SPDA)** programs. Any first year bonus program should be examined carefully to determine what value (if any) it provides to the consumer, i.e., the Base Rate is far more important in determining a program's ultimate value.

****** **Projected Account and Cash Values for Flexible Premium Deferred Annuity (FPDA)** are based on a **\$200 per month deposit** (12 per year) for **20 years**; and for **Single Premium Deferred Annuity (SPDA)** programs projected values are based on a **one-time deposit of \$100,000** held for **10 years**. **Note**, all values quoted are computed using the plan's **current base interest rate** for the above deposit amounts. Please note, all total dollar amounts **do include** any accrueable **year one bonus** amounts. By way of explanation the **Projected Account Value** is the amount available **only for use on a payout (retirement) option with that company**. The **Projected Cash Value** is the amount payable to the annuity holder **in cash or for transfer (rollover) to another annuity or if qualified funds to a mutual fund company**. (See **** Added Note** at bottom of next column).

VR Column: VR=Verification of Rating; i.e., the purpose of this column is to indicate whether the AM Best's Rating **is/is not** supported by another financial rating agency (Standard & Poors; Moody's; Fitch (formerly Duff & Phelps); or Weiss Research).

The Letter **Y= "Yes" rating verified at same or higher level**. **N= "No"**, the AM Best rating **not verified** at same level by another rating agency.

Cr Method/Yr(s) Base Int Rate Guar = Crediting Method utilized on a given annuity program/and the number of years that Base Rate is Guaranteed in the annuity contract. Please note, **with the exception of Certificate/CD type annuity programs**, there is **normally only a one year guarantee on an annuity's interest rate**; therefore, **only Certificate/CD Annuity (C) programs will display the number of years the Base Interest Rate is guaranteed**.

B=Banded or Blended Method crediting i.e., interest credited depending on the time of the deposit—to illustrate rate quoted on new money (new deposits) is not necessarily credited to money already on deposit for more than one year ("old money").

P=Portfolio method of crediting, i.e., all funds whether new deposits or those previously deposited earn the same interest rate.

C=Certificate or CD Type Annuity, i.e., the **Certificate or CD type annuity is a recently developed special class of fixed annuity**. The "CD" type annuity warrants its **special crediting classification as the time period of its Base Interest Rate is guaranteed for a specified number of years (3-5-6-7 yrs., etc.)**; and by contract the **Base Interest Rate cannot change either up or down during this time frame**. Surrender charge percentage rate will vary from carrier to carrier, but will match in years the guarantee period (3-5-6-7 yrs., etc.). At end of guarantee period annuitant will normally have a 30-day period to either withdraw or rollover funds with no penalty—if no action taken, during the 30-day window, funds will automatically renew for same period of years as previous contract **at a new guaranteed Base Interest Rate** (including restarting same penalty schedule).

Editor's Note: Each crediting method has its own potential advantages or disadvantages; however, the portfolio and certificate/CD types are clearly easier to understand. **The CD annuity also provides, by contract, a known Base Interest Rate for a specified number of years**.

Surrender Charge Schedule Modifier Definitions:

MVA: **MVA=Market Value Adjustment** can impact surrender charges by either increasing or decreasing them depending on movement of interest rates after annuity purchase date. (MVA charges not normally applicable if funds held to end of surrender charge period.)

Rolling (R): **Rolling or R= A Rolling Surrender charge** on annuity deposits means **each deposit** has a surrender charge schedule applied to it...as opposed to the normal procedure of establishing the penalty schedule **on the start date of the annuity contract** and all surrender charges ceasing in "X" amount of years regardless of the date of subsequent deposits.

RP: **RP=Return of Premium**; i.e., in lieu of actual surrender charge your funds are returned to you without interest.

**** Added Note: Projected Account and Cash Values** in our studies are based on amounts listed (\$200 per month FPDA/ \$100,000 single deposit to SPDA); carriers in some cases will pay a higher or lower rate depending on size of deposit or account balance.

Notes of Explanation on Additional Annuity Contract Provisions

FPDA Notes of Explanation

** See SPDA important note, regarding use of these symbols.

Minimum Premium per \$K = Minimum Premium per Thousand Dollars carrier will accept to issue the contract on a Non-Qualified annuity: Unlike SPDA's carriers will deviate from this amount for Qualified Funds (IRA, 401K, 403 (b), etc.). If >>> appear in this column it means the next column governs the minimum premium regardless of the source funds.

Min' \$ Amount EFT or Payroll Deduction = Minimum Dollar amount carrier will accept via Electronic Funds Transfer or Payroll Deduction. The amount mentioned in most instances is less than the Minimum Premium per \$K and is so listed. If the amount is followed by letter "Q" it signifies only Qualified funds accepted in this lower amount. When <<< appears in the column the EFT/Payroll deduction amount is identical to the amount given in the "Minimum Premium per \$K" column.

Bail Out Prov'n = Bail Out Provision: See SPDA notes on Bail Out Provision (explanation identical).

Max' Antz'n Age = Maximum Annuity Age: See SPDA notes on this subject (identical explanation). Note: please remember many FPDA contracts are on Qualified money (IRA, 401K, 403 (b), etc.) and these programs have Required Minimum Distribution (RMD) provisions which must begin at attainment of age 70.5.

Free Out Avail' = Free Out of a portion of Funds Available while Surrender Charge Schedule is in effect: Again, see SPDA notes for identical explanation of this annuity contract provision.

Charges Waived at Death /Nursing Home Waiver /Annuity Waiver: Consult SPDA explanations of these features as they are all identical for FPDA annuity programs.

SPECIAL NOTE APPLICABLE TO BOTH FPDA AND SPDA PROGRAMS: A symbol of "+" in any column indicates data not available from carrier at time of study's publication.

SPDA Notes of Explanation

**** Important Note: The use of ** in any column indicates carrier utilizes multiple criteria relative to this item and thus carrier must be contacted for specifics.**

Min' Prem' \$K = Minimum Premium Dollars (per thousand): i.e., \$5K means \$5,000 is the minimum amount carrier will accept to issue the annuity contract. Note if two amounts are listed (\$2-10K) it indicates the carrier will either: accept a lower amount for a qualified plan such as an IRA (regular or Roth); **or** carrier will credit a higher interest rate if premium amount equals or exceeds the higher listed amount.

Max' Issue Age = Maximum Attained Age the carrier will accept for issue of annuity contract. Please note the variances in age for specific categories. The modifiers are as follows: "A" = annuitant; "O" = Owner; "Q" = Qualified Annuity i.e., IRA, 401K, 403(b), etc.; "N" = Non-Qualified (funds from CD's sale of home or other property, etc.). If an age is listed **with no modifier it indicates all contracts use this age without exception.**

Bail Out Prov'n = Bail Out Provision. A few annuity contracts permit the annuity purchaser to withdraw their funds from the annuity without penalty ("Bail Out"), should the interest rate, at time of purchase, drop by a contractually specified amount before Surrender Charge Schedule has run its course. It should be noted, as a general rule annuity programs with a Bail Out Provision offer a lower starting interest rate...one could conclude there are very few annuity contracts with Bail Out Provisions because the lower interest rate lacks market appeal.

Max'Antz'n Age = Maximum Annuity Age is the latest attained age the owner or annuitant can annuitize the amount accumulated in the contract i.e., receive a guaranteed payout from the carrier for life or a specified period of time. Failure to annuitize before the maximum age specified in the contract could result in the annuity holder's income stream ceasing before death. The modifiers are identical to those found under **Maximum Issue Age.** Again, if no modifier to age listed, all forms of contracts use this age for that carrier.

Free Out Avail': Free Out Available while surrender charge schedule is in effect. To illustrate, Company "A" has a surrender

charge schedule that lasts 8 years. The annuitant/owner, in spite of the 8 year penalty period, may withdraw a specified amount each year without incurring a penalty. **The most frequent Free Out provision is 10% of account value each year after contract is in effect for one year.** A "Y**" in this column means 10% Free Out each year. A "Y***" mean there is a Free Out, but it differs from the 10% and annuitant/owner should contact carrier for specifics of its Free Out provision. "No" means contract has no Free Out provision.

Accepts Added Premium: A "Y" in this column means "Yes" carrier will accept additional premium into the account after contact is issued. As this is by definition a **Single Premium Deferred Annuity** most carriers do not accept additional funds hence the preponderance of "No's". A "Y" means no restriction on adding funds and "Y's" with modifiers are self explanatory.

Charges Waived at Death: Surrender charges in early years of contract are waived upon death of Owner "O" or Annuitant "A" as specified in contract. "No" of course means carrier does not waive surrender charges in event of death prior to annuity's surrender charges expiring. A "Y-O" = yes if owner dies; a "Y-A" = yes if annuitant dies; a "Y-A/O" refers to yes upon death of either annuitant or owner; and finally a "Y***" means carrier permits some form of withdrawal but carrier must be contacted for specifics.

Nursing Home Waiver: Again surrender charges can be waived if nursing home care is required prior to surrender charge schedule expiring. Because of the many variations on the waiver we indicated either "No" waiver or "Y***" which indicates "Yes", but carrier must be contacted to verify extent of its waiver.

Annuity Waiver: Refers to whether annuity carrier will waive surrender charges prior to their expiration if contract is annuitized for payout by owner/annuitant. A majority of carriers will agree to this scenario; however, as there are many variations of acceptability, all carriers who waive surrender charges are listed as "Y***" i.e., "Yes" there is waiver, however, carrier must be contacted for their waiver specifications. "No" indicates carrier will not waive penalties.
